Loss Prevention Systems, Inc.

AT/FP Anti-Terrorism / Force Protection | Security | Surveillance | Sustainment

Capabilities Statement

Loss Prevention Systems, Inc. is a total security solutions provider, servicing commercial businesses and all branches of the United States military. We have been providing quality security solutions for almost 40 years and have travelled extensively in the United States and the world, sustaining, repairing and installing security systems to keep our military bases safe. Our highly skilled technicians and core management team, as well as our facility, hold high level clearances. LPS has become the recognized expert in security equipment training, security consulting, maintenance, and operations in support of Homeland Defense, providing support to Force Protection, Base Operations, and Antiterrorism for the United States Government. LPS has maintained over 25 million dollars worth of AT/FP assets and more than 500 anti-vehicle barriers for the United States Navy, United States Marine Corps, United States Air Force, Drug Enforcement Agency (DEA), Metropolitan Washington Airport Authority, Disneyland, Angels Stadium and Honda Center of Anaheim. We have worked on all types of barrier systems, Wedges, Bollards, Drop Arms, Grabnets and Tire Spikes. We install, repair and/or design: SIS LAMAS/ RAMAS products and solutions, DMP, LENEL, BOSCH, DSC, AMAG access control systems, alarm integration, turnstiles, intrusion detection systems, fencing, bollards, barriers, cameras and card readers. We can supply, install and/or integrate several systems depending on the specific needs of your facility. LPS has customized, installed, tested and maintained access control systems for various sites throughout the world for the U.S. Navy, SPAWAR, C3F, NAVFAC AT/FP, the U.S. Air Force, and the U.S. Coast Guard.

Loss Prevention Systems is available for consulting and technical oversight. We can assist in design, product integration, procurement, and project management. We can help guide and oversee a project from beginning to end, ensuring a successful and comprehensive security solution.

MOST RECENT PERFORMANCE BACKGROUND

Naval Region District Washington, Washington D.C (Regional dispatch center integration and local dispatch center consolidation of e911, intrusion detection, fire alarm, GPS mapping, and C.A.D. computer aided dispatch migration of six bases)
David Lanphear (619) 200-6289

Nova-Underground P401 Point Loma Fuel Storage Upgrade, Point Loma, California (Automated access control and video management security installation and management)
Ken Woehler (707) 265-1136
